SUMMARY

Software Developer with 2.5 years of experience building responsive, scalable, and user-friendly web applications using Angular and ReactJS, HTML, CSS, JavaScript, and TypeScript. Skilled in creating interactive UI components, integrating RESTful APIs, and optimizing performance across browsers and devices. Experienced in health tech and real estate domains. Proficient in Git and Agile workflows.

WORK EXPERIENCE

Software Developer - DocBot PVT LTD.   Dec 2024 - Present

- Developed and optimized interactive front-end modules ensuring seamless user experience across devices.
- Built responsive UI with Angular & Bootstrap, integrating lead forms, product showcases, Google Maps, and WhatsApp chat.
- Created a real estate project showcase module with instant brochure download and one-click WhatsApp inquiry.
- Implemented reusable components and responsive UI designs using modern frameworks and libraries.
- Conducted debugging, performance tuning, and testing to ensure high-quality application delivery.

Software Developer - Mobicloud Technologies .   Sep 2022 - Jun 2024

- Implemented scalable UI components with Angular, and Material.
- Integrated RESTful APIs to enable real-time data communication between front-end and back-end.
- Conducted code reviews and implemented unit testing for robust and bug-free applications.
- Implemented user authentication, role-based access control, and secure API endpoints to   enhance application security
- Developed dynamic, animation-rich company portfolio website, boosting client inquiries.
- Developed a comprehensive diet management platform with separate dashboards for clients, coaches, and admins using Angular, ensuring secure login and user-friendly interface.
- Implemented dynamic tables, filtering functionalities, and responsive design to efficiently track and manage client nutrition plans.

EDUCATION

Bachelor of Science (Information Technology) │ Aug 2022 - Jul 2023

- Sikkim Professional University

Diploma in Computer Engineering │ Aug 2020 - Aug 2021

- R C Patel Polytechnic (MSBTE)

PROJECTS

DITE TOOL

- Built interactive features like dynamic diet charts, advanced filtering, and progress tracking, streamlining nutrition management and improving user engagement.
- Engineered a fully responsive diet management system with role-based dashboards (Client, Coach, Admin) using Angular 16, enhancing usability and secure access for 100% of users.

EXPENCE TRACKER

- Developed a responsive expense tracking application using React.js, enabling users to add, edit, and categorize daily transactions with ease.
- Implemented dynamic data visualization and filtering features to help users monitor spending patterns and manage budgets effectively.

SKILLS

- Programming Languages: JavaScript, Typescript, HTML, CSS, ES6.
- Front-End Technologies: Angular, React.js, Bootstrap, Angular Material, Tailwind css.
- Back-End Technologies: Node.js, Express.js.
- Databases: MySQL, MongoDB.
- Version Control : Git, GitHub.
- Web Tools & Technologies: RESTful APIs, AJAX, Chrome DevTools.
- Others: Responsive Web Design, Debugging & Testing.
